

Best  
Practices

```
graph TD; A((Best Practices)) --> B((Modeling Techniques)); A --> C((Simulation Engines)); B --> D((TRUE Simulations)); C --> D; B <--> C;
```

The diagram consists of four blue circular nodes. At the top is 'Best Practices'. Below it, to the left, is 'Modeling Techniques' and to the right is 'Simulation Engines'. In the center, between the bottom two nodes, is 'TRUE Simulations'. Arrows point from 'Best Practices' to both 'Modeling Techniques' and 'Simulation Engines'. Arrows also point from both 'Modeling Techniques' and 'Simulation Engines' towards 'TRUE Simulations'. A double-headed arrow connects 'Modeling Techniques' and 'Simulation Engines'.
